This questionnaire is designed to help us to get to know you and learn what you are looking for in a Drent. Drents are not for everyone and we like to make sure that our puppies are going to homes which will fit their needs basic needs and then some. In order to do this we must learn about their new families. We will do our part, early socialization opportunities, & health care, still the pups will need training, guidance and proper discipline, but most of all lots of love and family time.

If you need more space please write on the reverse or attach extra pages as you feel necessary.
